## EXPERIENCE

### UX/UI Developer — [Raise.dev](#)

Jun 2020 - Present - New York, NY (Remote)

Worked as the solo designer leading the UX and UI of creating and building the MVP. Directly collaborated with the founder and engineer team to prototype, design, deliver the UI and UX experience and develop the site. Created interface prototypes and the logic of the product with wireframes. Communicated and transferred the status and needs of the product to the founder. Collaborated with the founder and engineer teams on features to improve product interfaces and experiences.

### Graphic Communications Designer — [Dahdaleh Institute for Global Health Research](#)

Oct 2018 - Jun 2019 - Toronto, ON

Directly collaborated with the project manager/ strategist in the recreation of the marketing site as the sole designer. Facilitated in brand and identity and implemented a design system to be used for consistent site styling. Designed web and print research documents that were used and presented in global health conferences the Institute's researchers took part in.
